KENYA SME ROAD PROJECT

PERFORMANCE BASED ROAD MAINTENANCE CONTRACT (PBC) COURSE WITH BUSINESS MODULE

Project Description

The Kenya Small and Medium Enterprise (SME) Road Construction Project is a three-year program, funded by The International Finance Corporation (IFC), The Government of Japan, and managed by IFC Advisory. The aim of the project is to enable Kenyan SME road contractors to submit more qualified bids and win more contracts in public sector road construction, rehabilitation and maintenance.

KIHBT Training Program

Kenya Institute of Highways and Building Technology (KIHBT) is a project partner in offering additional training content on the existing Performance Based Contract (PBC) course for Kenyan Road Contractors. The additional content will focus on **business management**.

Target Group:

Kenyan Road Contractors registered with the National Construction Authority (NCA). The Training Program's participants should be business owners, high-level directors or staff directly engaged in the day-to-day business operations of the firm, including the participation to public procurement.
